Qualification at a glance

Qualification title	VTCT Skills (ITEC) Level 4 Certificate in Sports Massage
Qualification number	603/4497/0
Product code	iSP4C2
First registration date	01/10/2019
Age range	16-18, 19+
Credit value	19
Total Qualification Time (TQT)	190
Guided Learning (GL) hours	128
Assessment	To be awarded this qualification, learners must successfully achieve the following assessments: • External practical examination • Portfolio of evidence containing - Treatment evidence - Assignments - Client consultations/assessments
Grading	Pass/Merit/Distinction
Entry requirements	It is the responsibility of the centre to ensure that learners have the required knowledge, understanding and skills to enrol and successfully achieve this qualification. It is recommended that learners hold a Level 3 Diploma in Sports Massage or equivalent.

About this qualification

Aims and objectives

The main aim of the VTCT Skills (ITEC) Level 4 Certificate in Sports Massage is to enable learners to gain the necessary practical and theoretical skills in order to provide sports massage therapy treatments to the general public and to gain employment in the sports industry. This qualification is suitable for learners aged 16 and over and is designed to provide occupational competence at level 4. It also provides a sound platform into further training at level 5.

Content

This qualification is for learners who want to work within the sports industry. The qualification consists of 3 mandatory units with a total of 128 hours of Guided Learning (GL) to achieve the full qualification.

The main skills the learner will perform are:

- Conducting subjective and objective assessment – to include identifying bony structures associated with major joints, identifying soft tissue structures located at the major joints, joint end feels, pre-dispositions to injury and dysfunctions, factors that influence recovery from injury, treatment planning, postural types and deviations, pathophysiology of common injuries, methods and purpose of a range of objective assessment techniques and carrying out subjective and objective assessments
- Treatment modalities to support soft tissue repair – to include the aims of treatment and treatment options during acute, sub-acute and chronic stages of injury, treatment protocol, use of and adverse reactions to cryotherapy and thermotherapy
- Sports massage techniques to prevent and manage injury – to include a range of soft tissue techniques, protocols to follow for each technique, evaluating the effects of each technique, preparing clients, monitoring tissue response throughout treatments, adapting the techniques and treatment plan to meet the needs of each client, adapting own posture throughout the application to ensure safe and effective application and presenting aftercare advice to the client. The learner will also develop knowledge about client care and communication and health, safety and hygiene which is essential in order to work and be successful in the industry

This qualification also provides:

- The related knowledge and understanding required to perform the sports massage therapy listed above effectively, in particular advanced knowledge of anatomy, physiology and pathology of the body that may influence the massage methods used to prevent and manage injury
- Opportunities for learners to focus on the development of their wider skills in a sports massage therapy setting, such as communicating with clients, working with others and problem solving
- Opportunities for learners to develop a range of skills, techniques, personal qualities and attitudes essential for successful performance in employment as a sports massage therapist

Opportunities for progression

Once learners have achieved the VTCT Skills (ITEC) Level 4 Certificate in Sports Massage they may progress on to other VTCT Skills or equivalent qualifications at level 5 for example:

- Level 5 Certificate in Sports Massage Therapy
- Sports science
- Physiotherapy

Opportunities for employment

There are opportunities for a sports massage therapist to find employment in a variety of areas:

- Gym
- Health clubs
- Sports clubs
- Sports facilities
- Own sports massage clinic

Relationship to National Occupational Standards

This qualification has mapped to National Occupational Standards where they exist and has ensured that best practice in the workplace has been reflected in the qualification. This qualification is linked to the relative job roles as well as ensuring that the qualification reflects the required level of knowledge and ability for the sports massage therapist at level 4.

Qualification structure

To be awarded the VTCT Skills (ITEC) Level 4 Certificate in Sports Massage, learners must achieve all mandatory units.

The minimum GLH required to achieve this qualification is 128

The minimum TQT required to achieve this qualification is 190

Table 1

Unit code	Mandatory units	Guided Learning Hours (GLH)	Unit reference number	Unit weighting for the overall qualification grade
iUSP151	Conducting subjective and objective assessment	50	R/617/5625	0
iUSP193	Treatment modalities to support soft tissue repair	20	K/617/4285	0
iUSP157	Provide sports massage techniques to prevent and manage injury	58	J/617/5640	100%

Guided Learning Hours (GLH)

Guided Learning Hours is 'the activity of a learner in being taught or instructed by – or otherwise participating in education or training under the immediate guidance or supervision of – a lecturer, supervisor, tutor or other appropriate provider of education or training'. This includes 'the activity of being assessed if the assessment takes place under the immediate guidance or supervision of a lecturer, supervisor, tutor or other appropriate provider of education or training'.

Total Qualification Time (TQT)

Total Qualification Time is the number of notional hours which represents an estimate of the total amount of time that could reasonably be expected to be required, in order for a learner to achieve and demonstrate the achievement of the level of attainment necessary for the award of the qualification.

Assessment

All treatment evidence, internal assessments, assignments and underpinning knowledge must be completed prior to the final practical examination.

The final external practical examination will be carried out by the external examiner at the end of the period of learning. The external examiner will also verify a sample of the treatment evidence, internal assessment and assignments.

Table 1

Unit code	Mandatory units	Assessment	Grading
iUSP151	Conducting subjective and objective assessment	Portfolio of evidence – 5 client consultations/ assessments	Pass/Refer
iUSP193	Treatment modalities to support soft tissue repair	Portfolio of evidence – Assignment	Pass/Refer
iUSP157	Provide sports massage techniques to prevent and manage injury	Practical examination	Pass 60%-74% Merit 75%-89% Distinction 90%-100%
		Portfolio of evidence – 5 treatments	Pass/Refer

Unit specification and additional supporting material for this qualification can be found on the VTCT Skills website.

Grading of the qualification

Learners must achieve a Pass grade or higher in the requisite number of units as specified in the rules of combination, see table 1 above. Only mandatory units which are graded Pass/Merit/Distinction will contribute to the overall grade.

Practical examinations will be graded Pass/Merit/Distinction.

Portfolio of evidence containing the following will be graded Pass/Fail:

- Treatment evidence
- Assignments
- Client consultations/assessments

The overall qualification is graded Pass/Merit/Distinction.

Grade boundaries for units and the overall calculation for the qualification grade are open to annual review. Following this review, these boundaries and overall calculations can be adjusted by VTCT. This review and possible change within a qualification are to ensure the standard of the qualification grade is upheld throughout the qualification's lifecycle.

Theory examination

All theory tests must be conducted in a controlled environment and follow the procedures defined by VTCT Skills. The theory tests will be set and marked by VTCT Skills. The centre is responsible for ensuring the examination can operate seamlessly by organising the process as defined in the 'Instructions for Conducting Examinations' which can be found on the VTCT Skills website.

Practical examination

Once all aspects of the mandatory units have been completed, learners will be expected to complete an internal mock practical assessment. This will be undertaken by the internal assessor/lecturer using the internal assessment forms. These must be handed to the external examiner on the day of the final external practical examination.

All practical assessments must be conducted in a controlled environment defined by VTCT Skills. The practical examination will be conducted by an external examiner; however, the centre is responsible for ensuring the examination can operate seamlessly by organising the process as defined in the 'Instructions for Conducting Examinations' which can be found on the VTCT Skills website. The marking criteria and marking scheme can be found under the documents tab within the qualification.

Portfolio of evidence

Learners are required to provide a portfolio of evidence of treatments and/or case studies that they have performed on clients during their training under the supervision of the lecturer who will monitor the quality of the treatments in order to ensure that they meet the criteria.

- The criteria are detailed on the treatment evidence guidance forms
- The learner will need to complete a client consultation form as evidence that they performed the required number of treatments during their training (see Table 2) as they form part of the internal assessment for the qualification. They can be stored in the learner's portfolio

Learners are required to provide assignments under the supervision of the lecturer who will monitor the quality of the assignments in order to ensure that they meet the criteria.

- The criteria are detailed on the assignment guidance forms and form part of the internal assessment for the qualification

Quality assurance

Delivery of the qualification

A scheme of work must be approved by VTCT Skills for all units prior to the commencement of the course.

Lecturers should aim to deliver the theory and practical of each unit simultaneously, i.e., both theory and practical of each unit should be taught together to ensure the underpinning knowledge is being delivered at the same time as the practical skills. This will help to ensure that learners understand the structures they are working on as a result of combining delivery with the practical application of treatments.

Centre resources

The organisation delivering the qualification must provide workstations and trolleys for each learner. Learners need to be made aware of the amount of consumables/towels they will be required to provide.

Achievement record

All units will require an Achievement Record to be completed by the lecturer for each learner. This achievement record will need to be kept by the centre and may be sampled by the external examiner or external quality assurer on their visit.

An Achievement Record for each unit can be downloaded from the VTCT Skills website.
